

Chapter 5

Three cocktails later and I was feeling pretty loose. We giggled and danced and I could feel the aches from my feelings for Joe begin to ease. We were propping the VIP bar up while the guys were entertaining the ladies on deck.

"So you gonna prop this bar up or can I drag you away for a dance?" Joe whispered in my ear, I felt my stomach twist.

"Hey Joe" I answered and turned towards him.

Our faces were inches apart. He leaned in closer and said "I could take up where we left off earlier".

I looked in his eyes and saw his blue had deepened again he was turned on again.

"I think I'll prop the bar some more Joe" I replied turning back around and taking my drink.

"Come on Toni give the guy a chance" Sacha said to me. I looked at her and smiled.

"Would you? I asked her.

"Hell yeah Toni, he deffo hot for you". She replied. We both had drank quite a lot and were feeling a little free.

"I'll ask again Toni can I have this dance?" Joe asked. I downed my drink and the shot and turned around.

"Okay Joe you get one dance" I replied. He took my hand and I stumbled. Joe caught me and lead me to a quiet spot on the VIP deck. He pulled me close and held me tight. The music was slow and our bodies grinded together. I could feel Joe getting turned on. I looked into his eyes and fire burned there.

"I'm gonna remember this night forever, just you and me" he said to me.

I put my head on his shoulder and closed my eyes. I enjoyed this feeling and felt whole here with him.

"I'm not gonna be able to stop if this goes any further Joe" I whispered.

"I'm hoping you aren't gonna want me too" he replied. I looked at him and he smiled at me.

"Tonight is about me and you, I've made my decision Toni and I'm gonna stand by it" he said to me.

"You really thought about this haven't you" I said looking in his eyes. I could tell he wasn't lying.

"Come on we need to talk" he said holding my hand and walking me off deck. He held me close and walked me back to my room. I opened the door and we walked inside.

"What about the party?" I asked.

"We got 3 more nights to party, but tonight all I want is you" he replied kissing me.

I don't know whether it was the drink, but I couldn't stop him this time. He lead me to the bedroom and pulled me close.

"Now's the time to tell me to stop Toni" he said.

"I don't want you to Joe I wanna feel again" I replied.

He pulled my chin up towards him and kissed me. That familiar feeling was back and I knew I wanted this. Our tongues join together and sort out each other and I nibbled Joes lip. He groaned and that made me want him more. His hands moved up my body and over my breasts. I

moaned in pleasure. He took my top off and my bra. His mouth moved to my nipples and he bit them gently. I moaned and grabbed his hair in my hands.

"Joe don't stop please" I whispered as he sucked on them.

He brought his head up and kissed me on the lips again. My fingers fumbled with the buttons on his shirt and I took it off. His hands had moved to my trousers and he undid them. They fell to the floor.

"Oh god Toni you're driving me crazy" I undid his trousers and pulled them down.

I kissed his stomach down to the waist band of his boxers, he groaned. I stood up and Joe lifted me up. He kissed me again and I wrapped my legs around his waist. He carried me over to the bed and laid me down. He removed my thong and his boxers and climbed on the bed. His package was huge and I hoped I could take all of him; it had been so long I was scared it might hurt. Joe noticed my hesitation.

"It's gonna be okay I won't hurt you" he whispered and I relaxed again.

He kissed my stomach and down between my thighs. I moaned as he took my bud in his mouth and sucked on it. I cried out the pleasure was so great, I moved up to meet his mouth and Joe took it slow. I was going to come pretty quick this way.

"Please Joe I can't hold on much longer" he stopped and climbed on top of me. He forced my legs open with his and kissed me again. I could feel him nudging against me and grabbed his shoulders. He entered me so slow I was going crazy, then he went a little faster, I moved my body up to meet him and gave him the sign to go ahead and speed it up. I took all of him in and moaned with pleasure. We moved together slowly at first and then Joe lost control he got faster and harder. He groaned along with me and I moved with him. I dug my nails into his shoulder as I felt the pleasure mounting. I cried out in pleasure as my muscles clenched him and I came. Joe managed three more thrusts before he came too. He cried out and then collapsed on me.

He didn't move out of me for ages and I stroked his head. "man I've waited a year to feel this" he said and I smiled.

"I enjoyed it too Joe, it deffo sobered me up too" I replied.

He leant on his elbows on either side of me and smiled. He bent closer and kissed me.

"I know one thing I love you" he replied.

I got tears in my eyes.

"Hey what's the tears for? He asked stroking my face.

"I'm just so happy now, I think I'm falling for you too" I replied.

He kissed me and moved out of me gently. We moved up the bed and got under the covers. I laid with my head on his chest and stroked down his chest.

"Hey Toni keep doing that and I'll be doing it again" he replied.

"Really Joe" I replied kissing his nipple and giving it a little nibble. He moaned.

"damn it you're gonna kill me" he replied smiling. I smiled back and put my head back on his chest and closed my eyes. It felt amazing to be here with him right now. I fell asleep happy for the first time in a year.

I woke the next morning to an empty bed, Joe wasn't there. I panicked and dove out of bed to check the bathroom, still no Joe, the living area was empty too. I knocked on Sasha door no answer, I looked inside and her bed hadn't been slept in. Shit I knew where she was and she was gonna wake next to Donnie, he couldn't do a vanishing act like Joe had. Shit shit shit he

obviously regretted last night even after telling me he loved me. Christ why did I fall for that stupid line. I was old enough not to fall for that shit and I had fallen and bad. I could feel the tears building and took a deep breath. I needed to vent but nobody was here. I went to my bedroom and got into my gym gear, only one thing for it, I had to work it out of my system.
